

North Coast Radiology

Description:

The Group covers a wide expanse of area with North Coast Radiology servicing from Ballina in the south, Byron Bay in the north and Tenterfield in the west. Clarence Valley Imaging services two locations (Grafton and Maclean) and Dr Craig Dyer & Partners in Sydney with two locations (Chatswood and Ryde). In total the Group has thirteen locations set in both hospital and private practice settings.

The North Coast Radiology Group is recognised for its excellence in providing consistent, caring and professional services to its referring practitioners, patients and customers, utilising advanced, state of the art imaging technology.

All medical imaging modalities are represented by the Group including multi-slice CT, ultrasound, licensed MRI, nuclear medicine, general and dental radiography, mammography and bone densitometry. A large interventional service is also offered, including an angiography suite and our newly opened cardiovascular clinic.
